Dimchenkos — Individual Profile & Testimony

We were both running from God and if it were not for being reached for Christ when the Mehl's were pioneering churches in the Odessa state we would still be lost and probably no longer together. When we got saved we were radically saved and then trained up in a powerful church founded by Peter and Jill that raised up disciples to be on fire for Jesus. We served in the Izmial church until we were asked to join the team moving to Chernigov in 2001.

Present Ministry

Right now we are pastors of a church that we pioneered in Romni and also involved in mobile evangelism going into prisons and villages and preaching the Gospel. The goal of our church is to preach the Word of God in Romni and surrounding villages, to start churches and make disciples of Jesus Christ. The vision of our church is to reach people through cell groups. Together with another RHM church we started doing services in a special security prison where people stay for a life time. Up to 50 people come to services in this prison. Our desire is to build the Kingdom of God, be in the will of God, never quit, and fulfill the calling of God on our lives. We are very thankful to God for the opportunity to be in Russian Harvest Ministries and be in fellowship with wonderful families: the Mehl's and the Lazuka's and many other wonderful people.
